

The Lyme Nursery

Invest ... in the best!

Another fortnight has gone by so quickly and we're here again with another newsletter to share with you of what's been going on in and around the Nursery, plus our forthcoming events. If you ever want to suggest ideas, feedback or comments we could include in or improve our newsletters, please feel free to message us! Mandi 21.10.21

It's all going on w/c 31st October! Have you got your Halloween costumes ready? We'll be getting our pumpkins carved ready for Halloween week. Maybe our lovely Hannah will make a beautiful pumpkin soup served with delicious crusty bread?? Please Hannah?

Let's all get practising our smiles for Paolo Lorasio on Wednesday 2nd Nov. If you're a non-Wednesday customer, there's no need to book, just turn up before 11am to get your child's picture taken and remember, siblings are welcome. No obligation to purchase.

Parents Evening Wednesday 2nd November 7–9pm. Hopefully by now you will have received your invitation to join us in our bi-annual Parents Evening on the above date. The atmosphere is always amazing; it's great to have a talk with your child's Key Worker to see how they're developing at Nursery (and to hear how happy they are). You may also have a look at the other rooms if you've not seen them before. Don't forget to book your time slot via Famly or direct with the staff.

Saturday 5th November will be our first ever Open Morning 10–12 noon. Please share this with family/friends, we'd be honoured to showcase our home from home setting. If you recommend a friend who book before December 2022 you'll receive £50 (T&C apply).

Our Baby group has spent lots of time enjoying the autumn weather. Wrapped up in their hats, and scarves (either walking or being carried) they have explored our gardens. They can't see over the maze but they've tried to make their way through! The new water features have also been a hit with all groups. They've been fascinated watching the water slip and slide it's way down the pipes! Toddlers have been testing their physical development by aiming to climb the big slide all alone and running around our huge lawned area. The mud kitchens are also a popular area to play and get messy .. and why not, it's Nursery! Pre-school continue to whizz around the play area on the bikes & trikes. We may need to introduce some zebra crossings and lollipop officers!
