

The Lyme Nursery

Complete Nursery Day Care
and
Early Years Learning

Dear Parents, hope you've had a good few weeks since the last newsletter. I would personally like to share this with you - this year we've had so many prospective parents visit our warm and homely setting looking for a place for their baby/child upon recommendations. I would like to say thank you, not only to our wonderful staff, but YOUR babies and children who have been seen living their best life here at Nursery. Tours have watched your children having fun, learning through play, singing, getting very messy, dancing, lining up to go outside or come back in from the garden and playing in the garden. However, most of all is watching the children interact with our visitors, whether it be with the parents or the baby/child. We have our children gently patting babies, asking what their names are, telling the tours what they have been doing and one of the best moments was when one of our Pre-schoolers took a prospective parent's hand out of their pocket, shook their hand and said "nice to meet you"! Your children are all superstars!

General Reminder:- Please can we remind all parents/visitors that mobile phones/cameras cannot be used inside of the Nursery. We understand that most parents use their phones to access calendars/e-mails etc but due to the legal safeguarding policy phones must not be accessed. Thank you.

Diary Dates:-

March 6th: World Book Day
April 14th: Easter Funweek
May 7th: Paolo Loraso photo's
May 14th: Parents Evening

Here's what our Babies group have been doing during February 2025:-

Our wonderful Team Leader Darcy and her amazing team have been keeping the busy babies super happy with LOTS of messy play. They've had sand play, water play, flour play (very messy). They've created a farm using cereal and animals, they've painted, made Valentines cards with hand/footprints they've been singing and they've loved the cosy tent/story corner. They've stacked blocks, used the musical instruments, had sensory play and much much more ... and they've had lovely sleeps with the white noise playing but most of all ... they've had PLENTY of cuddles from everyone!

Here's what our Tiddlers group have been doing during February 2025:-

Tiddlers have been doing lots of painting this month for their healthy eating wall as well as creating different types of food with their hands and feet. They've completed their family wall so the children can point and smile at their families. There was lots of Valentines messy play alongside lots of various artwork that have been sent home for families to hang up and show off their child's talent!

Here's what our Pre-school group have been doing during February 2025:-

Pre-school have been continuing from the theme 'People Who Help Us' to now explore how they can all keep themselves safe, such as stranger danger, road safety, plug sockets and home safety. They have started their new display for The Very Hungry Caterpillar and have done symmetrical butterfly painting. Next month their plan will be to do some fruit and food tasting (from the story). They are also searching for signs of spring and have started to go on mini-beast hunts in the garden. Pre-schoolers all love their music too. They've played musical chairs, dances to Danny Go, requested their own favourite music which they listen to at home and danced away with Miss Rachel our dance teacher. It's very fair to say that with Isobel our Pre-schoolers definitely know how to make the most of Nursery life!

Invest ... in the best!
